

Monster Hunter Nemesis (Monster Hunters International Book 5)

#5 in multiple New York Times bestseller Larry Correias Monster Hunter series. Agent Franks of the U.S. Monster Control Bureau is a man of many parts parts from other people, that is. Franks is nearly seven feet tall and all muscle. Hes nearly indestructible. Plus hes animated by a powerful alchemical substance and inhabited by a super-intelligent spirit more ancient than humanity itself. Good thing hes on our side. More or less. Sworn to serve and protect the United States of America from all monsters by one of the countrys founding fathers, Franks has only one condition to the agreement: no matter what the government learns of him, no matter what is discovered concerning his odd physiology or the alchemy behind the elixir that made him, the government is never, ever allowed to try and make more like him. Such is absolutely forbidden and should the powers-that-be do so, then the agreement is null and void. Project Nemesis: in a secret location, using sophisticated technology and advanced genetic engineering, the director of the very agency Franks works for is making more like him. And the director is not content with making one. Nope, hes making thirteen. Now all bets are off, and Hell hath no fury like a monster betrayed. Particularly if that monster happens to be an undying killing machine capable of taking out vampires and werewolves with one hand tied behind his back. At the publishers request, this title is sold without DRM (Digital Rights Management). About Larry Correias Monster Hunter series [A] no-holds-barred all-out page turner that is part science fiction, part horror, and an absolute blast to read. Bookreporter.com If you love monsters and action, youll love this book. If you love guns, youll love this book. If you love fantasy, and especially horror fantasy, youll love this book. Knotclan.com A gun person who likes science fiction or, heck, anyone who likes

science fiction will enjoy [these books] The plotting is excellent, and Correia makes you care about the characters. I read both books without putting them down except for work, so what day are you waiting for? Go and buy some for yourself and for stocking stuffers. Massad Ayoob About Larry Correia's Monster Hunter Vendetta: This lighthearted, testosterone-soaked sequel to 2009's Monster Hunter International will delight fans of action horror with elaborate weaponry, hand-to-hand combat, disgusting monsters, and an endless stream of blood and body parts.
