

William Empson: The Critical Achievement

William Empson (1906-1984) was one of the twentieth century's most distinctive critical voices, and left a profound mark upon Anglo-American literary culture. This book is the first full study of Empson's literary criticism in its various aspects, taking account of recent developments in critical theory and of Empson's complex and at times deeply antagonistic attitude towards those developments. In their diversity of viewpoint and critical approach the nine essays reflect this sturdy resistance to fashionable trends of Eng. Lit. opinion. Topics include the relations between Empson and Derrida's approaches to the issue of textual undecidability, and Empson's prominent (if unwilling) role in the shaping of English as an academic discourse. Christopher Norris's extended introduction charts the ground and offers a major reevaluation of Empson's place in the theoretical tradition.
